Other Projects

ElevateEdu 🌐: elevatedu.org/

ESL jobs portal and ATS platform, launched in 2025 as a partnership offshoot of eChinaCareers. I was the sole developer, owning all engineering and deployment end to end - .NET 10 (API / Blazor), Postgres, and AWS for hosting and supporting services (EC2, RDS, S3, ECS, SES, CloudWatch).

EDUCATION

University of Leeds, 2017
BSc Theoretical Physics

Sichuan University, China, 2015
Chinese Language Scholarship, HSK Level 4

WORK EXPERIENCE

RotaGeek – Senior Software Engineer
May 2026–Present
Working primarily on the platform modernisation team, migrated the entire Rotageek application suite from .NET Framework to .NET 10, including the main web app, data services (EF Core), API services, and web worker services. Used Claude Code for agentic coding. Regular use of Azure and Github Actions for deployment and investigation of issues.

Jet2.com and Jet2 Holidays – Senior Software Engineer
May 2023–May 2026
Worked as part of an Agile multi-team organisation, focusing primarily on the e-commerce websites (Jet2.com and Jet2Holidays.com) using Sitecore CMS and .NET, adding features as per business requirements. Recently began working on major front-end refit to use NextJS.

FPT Software, Vietnam - Senior Developer
Aug 2021–April 2022
Multiple projects using new and legacy .NET technology, SQL Server, MVC, Blazor, React. Responsible for development of complex features (front and back end), code review and some mentoring of trainee developers. Some Azure Cloud.

Moovshack, Luton - .Net Developer
Dec 2020–Aug2021
Primarily focused on integrating Moovshack API with third party platforms. Some full stack web development using MVC and Blazor.

JBA Consulting, Skipton - .Net Developer
Jan 2020–Dec 2020
Worked on porting the flagship GISmapp environmental mapping iOS app to Xamarin Forms, from Obj-C to C#. Also performed some full stack web development duties using Net Framework MVC and SQL Server.

eChinaCareers, China - .Net Developer
Apr 2018–Jan 2020
Start-up in the recruitment sector in China. Sole developer of the eChinaCareers website (.NET MVC / SQL Server) and in-house applicant tracking system using UWP. Also created a partner website (teacher-bay.com) using Net Core / React and Typescript.
